## RESEARCH INTERESTS

Blockchains, Data Analysis, Social Computing, Machine Learning.

## EDUCATION

### PhD., Computer Science

Saarbrücken, DE

**Max Planck Institute for Software Systems - MPI-SWS**

August 2018 - present

Universität des Saarlandes - UdS

Networked Systems Research Group

- My research (supervised by Dr. Krishna P. Gummadi) focuses on fairness concerns on proof-of-work blockchains. More specifically, on transaction commit times in blockchains.

### M.Sc., Computer Science

Belo Horizonte, BR

**Universidade Federal de Minas Gerais - UFMG**

March 2015 - June 2017

Laboratório de Computação Social - LoCuS

- Two-year program. My research was supervised by Dr. Fabrício Benevenuto.
- Thesis: Characterizing Interconnections and Linguistic Patterns in Twitter.

### B.Sc., Computer Science – Exchange Program

Budapest, HU

**Eötvös Loránd University - ELTE**

July 2013 - September 2014

- Honors: Granted a scholarship from the Brazilian Scientific Exchange Program (Science without Borders - CAPES) for Academic Excellence to study in a European University for fourteen months.

### B.Sc., Computer Science

Ouro Preto, BR

**Universidade Federal de Ouro Preto - UFOP**

March 2009 - December 2014

- Four-year program, Total Grade: 8/10. My research was supervised by Dr. Ricardo A. R. Oliveira.
- Thesis: Framework Para Sistemas de Navegação de Veículos Aéreos Não Tripulados.

## EXPERIENCE

### Data Scientist and Full Stack Software Engineer

Belo Horizonte, BR

**Kunumi Serviços em Tecnologia da Informação**

June 2017 - July 2018

- I worked on machine learning projects for risk and loan default prediction and on health insurance characterization and forecasting.

### Research Intern

Saarbrücken, DE

**Max Planck Institute for Software Systems - MPI-SWS**  
Networked Systems Research Group

February 2017 - May 2017

- I was supervised by Dr. Juhi Kulshrestha and Dr. Krishna P. Gummadi. I contributed to a project on investigating political bias in social media and web search.
- Our work has been published in [CSCW'17] and [Inf Retrieval J'19].

#### Research Intern

Saarbrücken, DE

**Max Planck Institute for Software Systems - MPI-SWS**  
Networked Systems Research Group

February 2016 - May 2016

- I was supervised by Dr. Mainack Mondal and Dr. Krishna P. Gummadi. I contributed to a project on managing online data privacy and security via exposure project.
- Our work has been published in [SOUPS'16], [IEEE Internet Computing'17], and [Int J Adv Eng Sci Appl Math'17].

#### Research Assistant

Belo Horizonte, BR

**Universidade Federal de Minas Gerais - UFMG**  
Laboratório de Computação Social - LoCuS

March 2015 - June 2017

- I worked on research theory of social computing and data analysis. My research was supervised by Dr. Fabrício Benevenuto.
- During this period, our work was published in [HT'17], [WI'17], [Soc. Netw. Anal. Min.'17], [ASONAM'16], [WebMedia'15], [SBBD'15], and [BraSNAM'15].

#### Developed Systems and Applications

1. **Eleições sem Fake:** We developed multiple systems to help with the Fake News problem. Those systems were the key to our research on misinformation dissemination within public WhatsApp groups [WWW'19], [ICWSM'19], [WebMedia'18].
2. **Who Makes Trends?:** Demographic of Trend Promoters is the distribution (or combination) of demographic groups (such as middle-aged white men, young asian women, adolescent black men) in the crowd promoting (or posting about) a topic before the topic becomes Trending on Twitter. This system was key to our work published in [ICWSM'17].
3. **Search Political Leaning of Twitter Users:** This system helps users to infer the political leaning (between democratic and republican) of Twitter. It was key to our work published in [CSCW'17] and [Inf Retrieval J'19].
4. **Secondary Digital Footprint:** Twitter is social, people converse with other users by mentioning their username in their own tweets (e.g., while replying to other Twitter user's tweet or giving a shout-out to them). These conversations are their secondary digital footprint, even if they delete their account or delete selected tweets, this secondary footprint is not deleted automatically and leaks information about them. This system was key to our research published in [SOUPS'16], [IEEE Internet Computing'17], and [Int J Adv Eng Sci Appl Math'17].

#### PRESS

Some of my scientific efforts have been covered by news media and specialized blogs, including The New York Times, The Huffington Post, MIT Tech Review, BBC Brasil, Nexo, and Folha de São Paulo.

## TALKS

- 2019: (Mis)Information Dissemination in WhatsApp: Gathering, Analyzing and Countermeasures. 5th International Conference on Computational Social Science (IC2S2'19). Amsterdam, NL.
- 2016: From Migration Corridors to Clusters: The Value of Google+ Data for Migration Studies. IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM'16). San Francisco, US.
- 2016: Towards Sentiment Analysis for Mobile Devices. IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM'16). San Francisco, US.
- 2015: Bazinga! Caracterizando e Detectando Sarcasmo e Ironia no Twitter. Brazilian Workshop on Social Network Analysis and Mining (BraSNAM'15). Recife, BR.
- 2015: Brazil Around the World: Characterizing and Detecting Brazilian Emigrants Using Google+. Brazilian Symposium on Multimedia and the Web (WebMedia'15). Manaus, BR.
- 2013: Bots Sociais: Como robôs podem se tornar pessoas influentes no Twitter? XXXII Concurso de Trabalhos de Iniciação Científica (CTIC'13). Maceió, BR.
- 2012: Sigam-me os bons! Transformando robôs em pessoas influentes no Twitter. Brazilian Workshop on Social Network Analysis and Mining (BraSNAM'12). Curitiba, BR.
- 2011: UGUIDE: Rede Social Móvel Aplicada a Educação. XIX Seminário de Iniciação Científica da UFOP. Ouro Preto, BR.
- 2011: Computação Móvel: Tendências e Android. 6ª Semana da Informática - IFSULDEMINAS. Muzambinho, BR.
- 2010: BlueGuide - Uma Plataforma de Suporte ao Turista em Ouro Preto. I Seminário de Pesquisa do PPGCC & UFOP e I Fórum de Alunos e Ex-Alunos do DECOM. Ouro Preto, BR.

## **TEACHING**

### **Courses**

- 2019: Teaching Assistant for Operating Systems at MPI-SWS and UdS.
- 2016, 2017: Teaching Assistant for Analysis and Algorithm Design at UFMG.
- 2013: Design and Analysis of Algorithms for high school students at Escola Estadual Dom Silvério.
- 2013: Operating System for high school students at Escola Estadual Dom Silvério.
- 2013: Introduction to Hardware for high school students at Escola Estadual Dom Silvério.

## **SKILLS**

### **Data Science**

Social media data (Twitter, WhatsApp, Google+, Facebook) crawling, cleaning and analysis; feature engineering; descriptive and inferential statistics (incl. correlation, regression, t-test, chi-square); applied machine learning (supervised, unsupervised); Python (incl. Pandas, NumPy, SciPy, Scikit-Learn, XGBoost), iPython, SQL.

### **Soft Skills**

Scientific and non-scientific presentations.

### **Programming Languages**

Python, C, C++, Java.

### **Languages**

Portuguese (native), English (fluent), German (basic).
